

Indian weddings are beautiful chaos. Phera handles the guest logistics so you can focus on the celebration.

Phera is an Indian-wedding guest-logistics platform. The brand voice is warm, calm, and capable — premium without being stiff, cultural without being kitsch. The visual system pairs an editorial italic serif with a clean geometric sans, anchored by a single confident pink and a warm-paper canvas.

TAGLINES & VOICE

HEADLINE & PITCH

- **Hero:** Your desi wedding, ~~minus the headaches.~~
- **One-liner:** Indian weddings are beautiful chaos — 300+ guests, 3–5 days of events, people flying in from everywhere. Phera handles the guest logistics so you can focus on the celebration.
- **Product sub:** One AI wedding planner that runs it all — just talk to it. Guest list, RSVPs, rooms, shuttles, vendors, and the midnight WhatsApps, handled by chat or voice.

META / SEO DESCRIPTORS

- **Title:** Phera | Indian Wedding Planning Platform
- **Description:** The modern Indian wedding platform. Manage RSVPs, coordinate travel, share events, and create beautiful wedding websites. Start free, add smart AI agents when you need them.
- **CTAs:** “Get started — it's free” · “View Demo”

HERO MARQUEE — THE WORK PHERA ABSORBS (SET IN SERIF ITALIC)

LOGO & LOGOMARK

The mark is a **lotus-flame** glyph — a lotus that reads as a flame, nodding to the sacred fire (*agni*) circled during the *phera* ritual. It locks up left of the “Phera” wordmark, set in the display serif. Logomark may stand alone as an app icon / avatar.

WORDMARK · INK #1A1A1A
